

# All Saints App of the Week

## Scratch Jr (Free)

What a fabulous Book Week we have had this week at All Saints.  
We certainly have plenty of budding authors!

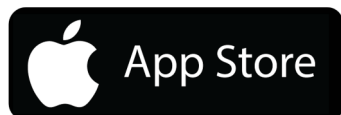

Perhaps you could try animating your own mini-story using one of our Apps of the Week. We would love to see them!

Scratch Jr is free to download and use. Pupils in KS2 will be used to using the advanced version of this app which is free to download onto desktop PCs (but not mobile devices). It uses simple instruction blocks that can be slotted together like jigsaw pieces in order to create commands. Full instructions can be found [here](#):

# All Saints App of the Week

## Fairytale Play Theatre

Basic Version (free)

Additional story packs  
£0.99 each.

Full version including all  
story packs, £4.99

If you love telling stories or putting on a show, then this app from Nosy Crow will be right up your street.

There are some basic fairy tale characters, settings and props provided with the free version of the app. Children can arrange and animate their characters, record their story over the top of the animation and save their finished videos.

You don't have to create a fairy tale story either, your animation can be about anything you like!
